Core Competencies

- Front – End Development
- User Experience Design
- Project Management
- Quality Assurance & Testing
- Performance Optimization
- Client Relationship Management
- Agile Development Methodology
- Codebase Reliability
- Debugging & Troubleshooting
- Team Collaboration & Management
- Technical Assistance
- Server – Side Rendering (SSR)
- Search Engine Optimization (SEO)

Education

2021 – B.Tech. – Computer Science & Engineering
Nanasaheb Mahadik College of Engineering, Peth

2018 – Diploma in Computer Science & Engineering

Technical Skills

- **Front-End Technologies:** Next.js, React.js, Redux, TypeScript, REST APIs, Tailwind CSS, Webpack, ESLint, ES6+, Material UI, Next UI, responsive web design, JavaScript, Bootstrap, SASS, HTML5, CSS3, Jest & AJAX
- **Backend Technologies:** Node.js, Nest.js, Express.js
- **Databases:** MongoDB, DynamoDB, Firebase
- **Other:** Data Visualization, Apache E-Charts, Git, Version Control, SEO, Problem Solving, Data Structures, Algorithms, OOPs, Webpack

Certifications

- **MongoDB Certification – Coursera**
- **Interactivity with JavaScript – Coursera**
- **Advanced Styling with Responsive Design – Coursera**

ANEESAHMED MANER
Software Engineer

Skilled Frontend Developer with almost 3 years; targeting similar positions with some reputed organization to enhance skill set and contribute to the success of the organization promoting mutual growth

Profile Summary

- **Proven track record of delivering high-quality web experiences using Next.js and React**, with focus on blending aesthetics and functionality to create user-friendly interfaces.
- **Achieved a 30% improvement in the Lighthouse Report score by leading the migration of an Online Recruitment Platform from Angular 1.2 to Next.js 13**, resulting in enhanced website performance and user experience.
- **Proficient in Next.js, React.js, TypeScript, Redux, REST APIs, Tailwind CSS, and other front-end technologies, with a strong understanding of responsive web design** and cross-browser compatibility.
- **Committed to continuous learning and innovation, staying up-to-date with the latest industry trends and technologies** to deliver top-notch solutions that resonate with users.
- **Experienced in requirement analysis, estimation, and feature development**, ensuring timely delivery and alignment with project objectives
- **Collaborative approach in brainstorming and identifying optimal solutions** for complex problems, leveraging software development expertise and domain knowledge

Organizational Experience

Apr'22 – Oct'23 | Roxiler Systems, Pune
Software Engineer

- **Partnered with diverse teams to create a cutting-edge Cyber Security Monitoring web application powered by Next.js 13**, enabling real-time monitoring of activities across the entire IT infrastructure. This project enhanced security and decision-making capabilities.
- **Leveraged Apache E-Charts to create and integrate a range of data visualizations**, enhancing insights and decision-making capabilities.
- **Led the migration of an Online Recruitment Platform** from Angular 1.2 to Next.js 13, resulting in a remarkable improvement in the Lighthouse Report score from 65% to 90%. This migration improved website performance and user experience.
- **Conducting rigorous unit testing using Jest, ensuring robust code functionality, identifying potential issues** early in the development process, & contributing to the overall reliability of the application.
- **Emphasized the importance of Search Engine Optimization (SEO) to greatly amplify website performance** and elevate the overall user experience.
- **Established a robust codebase foundation, proactively identified errors, and ensured project sustainability** by leveraging advanced TypeScript techniques.
- **Successfully addressed cross-browser compatibility challenges, guaranteeing seamless performance** across a wide range of web browsers.
- **Crafted sleek and adaptable user interfaces** with Material UI, elevating visual coherence and optimizing the overall user experience.

Apr'21 – Mar'22 | SDLC Corp, Noida
Associate Software Engineer

Key Result Areas:
- **Built an Online Learning platform using React and Node.js, enabling tutors to create courses and developing a user interface** for students to purchase them. This platform facilitated seamless learning and course management.
- **Utilized Firestore as the database for seamless data management, integrated Firebase Authentication** for secure user sign-in and authorization, and employed Amazon S3 for storing and managing course content.
- **Developed and maintained responsive web applications using React, ensuring a seamless user experience** on various devices and screen sizes. This attention to detail enhanced user satisfaction and engagement.
- **Implemented Redux for centralized and predictable state management in complex React apps**, enhancing codebase maintainability and scalability.
- **Used Node.js and Express framework to build server-side logic** and applied middlewares to manage HTTP requests.
- **Assisted in the design and development of Restful APIs and services** to interact with the data storage layer.

Personal Details

- **Date of Birth:** 26th April, 1998
- **Languages Known:** English, Hindi and Marathi
